How does the professional engage with this young person?

You are Jodie's class teacher. Her mum has been on the phone in floods of tears saying that Jodie has written a suicide note. She has pleaded with you to speak to Jodie as she is beside herself with worry.

Things to think about:

- Confidentiality and safeguarding within your role.
- Using appropriate language.
- Check out Jodie's ambivalence, and use the thermometer.
- Does she fully grasp the finality of death?
